- A presentation and analysis was shared with the group regarding Jail Data during the COVID-19 pandemic based on individuals provided by SBSO.
- Sheriff Brown advised that the limited individuals released were due to zero bail and the plan was to track this original group. He advised that one third of the individuals have been re-booked and some of them multiple times. The analysis shows that those released on zero bail were not new to the SBSO and many had been booked previously on prior charges. Chief Heitman advised of the importance to look at individuals that are recidivating prior to and after the pandemic to correlate recidivism to zero bail.
- Supervisor Hart stated data needed to be fully vetted at the Workgroup so what is brought forward to the CCP is a full picture.
- PD Macuga indicated that this is a small sample and as a Public Defender she wants information regarding their housing stability, discharge plan, connection to BW, and substance abuse issues. As many individuals are on Probation Supervision or being released on Pretrial are successful, we should also be highlighting successes.
- Dr. Gleghorn stated that during Zero Bail the BW substance abuse assistance line was able to screen individuals and have them go to the sobering center and connect them to substance abuse treatment. There will be additional funding coming to the County to target those that were incarcerated during COVID-19 for discharge planning, transportation from jail to treatment centers, and a mental health navigator.
- Sheriff indicated individuals are reoffending, nothing is happening with the courts being closed and they are out on Zero Bail. We need to determine how to hold repeat offenders accountable.
- Sylvia Barnard reported to the group that many of the homeless shelters were closed and it was a big factor during COVID-19.
